Catalog

Return to the essence of dining.

With this catalog, we aim to return to the essence of dining. We do this by showing multiple inspiring, qualitative but most of all pure products throughout the different pages. This can be seen in 2 ways: Fine2Dine offers pure tableware products that can reinforce the presentation of any dish. On the other hand we have the use of ingredients in their purest form. The idea is to inspire

chefs from this point of view. We want to catch their attention and inspire their thoughts about the desired dish and the accompanying presentation. Without their creativity, an ingredient is nothing more than a suggestion. They have to use their inspiration to turn the ingredients into a successful recipe that separates a culinary experience from bland nourishment.

Reactive Glaze 

Binded by similarity,
distinguished by uniqueness.

Different pattern & difference
in color resulting in unique items.

Most of our ranges are finished by hand, using a reactive glaze. Thanks to this glazing process no two pieces are alike. Random patterns and colour differences will form, resulting in truly unique pieces that still refer to the same family and all items of that family will perfectly match together.

You can compare the effect of reactive glazes with snowflakes. No matter how many billions of them fall from

the sky, there are never two alike. This is the case because every snowflake has its own unique pattern and there is an infinite number of possible shapes they can form.

The same counts for tableware finished with a reactive glaze. You'll never catch two exact copies, but within the same collection they'll all have something in common. In this catalog, all ranges that feature a reactive glaze are marked with the following symbol: 

Arco

A glimpse of lost times.

Arco reflects the vigor of ancient fossils as the subtle ribbed shape on this range embodies the timelessness of majestic ammonites. Arco combines a matte, reactive glazed finish along with a slightly raised irregular rim for a unique touch. Above

this, these reactive glazes and robust but elegant organic shapes bring an incomparable authenticity to your dinner table. Its desert flaxen color pattern is immensely versatile, making it your perfect companion for each setting.

Atlas

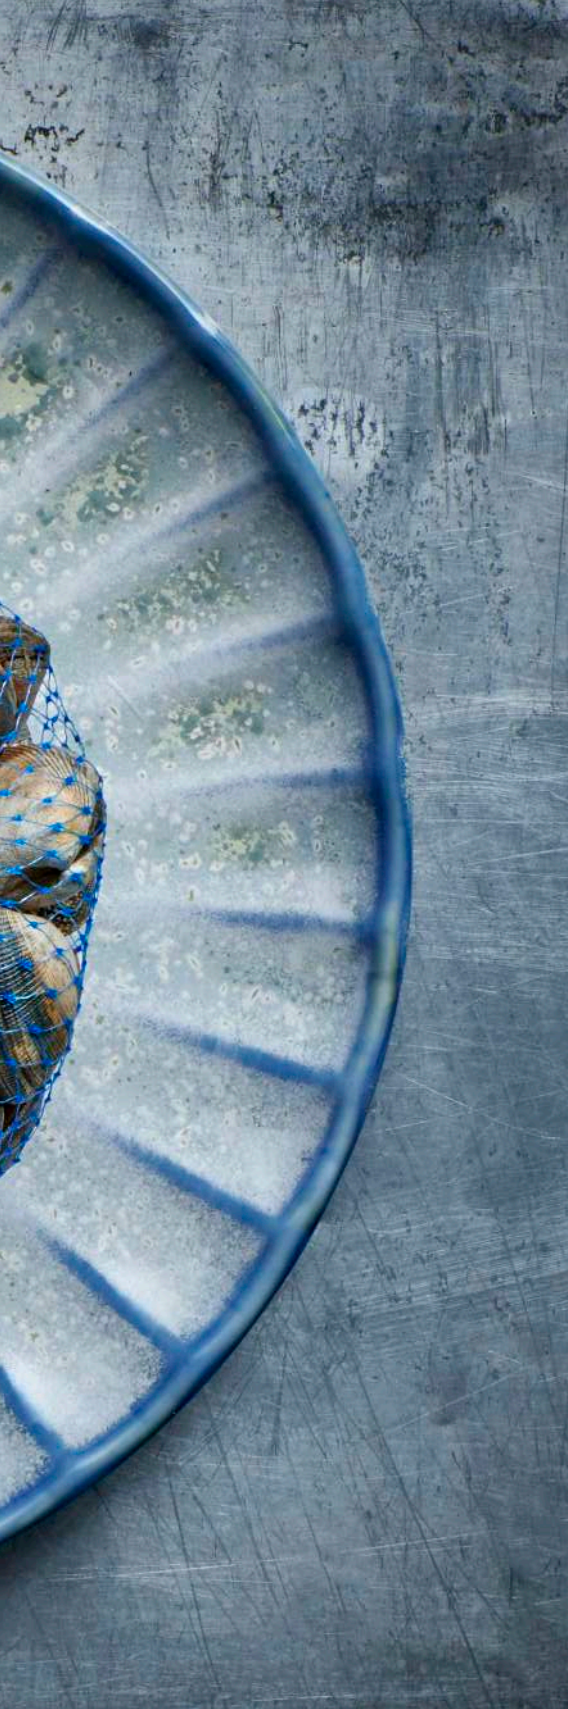

Elevates your dish

The world has been an incredible source of inspiration for the creation of this Atlas collection. It's durable porcelain tableware with clear references to natural elements such as blossoms, shell shapes, waves and other abstract structures that can be found in nature.

Each element is characterised by a well-shaped rounded rim that creates a refreshing culinary perception. Atlas literally elevates the food that is served on it.

The exceptional thing about Atlas is that no two items are precisely the same. The reactive glaze creates small imperfections that fit completely into the imperfect world it refers to.

Brass

Robust oriental design

Brass found its inspiration in the Middle East. The robust oriental design with metallic look and hammered texture is the perfect match for fresh, flavorful food. Every piece has subtle nuances in finishing and is therefore unique.

Made from durable high-quality porcelain, all Brass tableware adds an authentic touch to your dishes. Go for a stylish one-colour set-up or mix and match the copper and silver colours for a more playful presentation.

Below this, a large, dark, curved plate is partially visible on the left. In the lower right, a smaller, dark, curved bowl is shown. The background is a dark, textured surface, possibly a tablecloth or countertop. The lighting is dramatic, highlighting the textures of the porcelain and the peas.

Black Ceres

Strong robust tableware

If you're looking for strong robust tableware in a darker color palette, the black Ceres collection fits the bill. All products are made of durable high-quality porcelain and are matte finished with a reactive glaze technique.

On top of the beautiful soft-curved design, all tableware is perfectly user-friendly. The black matte design provides a great contrast for brightly colored foods. Challenge your inner chef and get creative!

Curvo Forest

Strong round and bulky shapes

The diversity of the human body and the social movement about body positivity have been an incredible source of inspiration for the creation of the Curvo collection. Just like the movement, Fine2Dine aims to challenge the established

beauty standards. Instead of fine lines and elegant slim forms, Curvo features strong round and bulky shapes in combination with dark earthy colors. The sturdy porcelain tableware items will add a chunky flair to your table.

powerful and distinctive curves

Building on the foundation of diversity and body positivity that inspired our original forest Curvo collection in striking green, we are delighted to unveil a new addition. Just as the body positivity movement challenges conventional beauty standards, our Curvo collection continues to defy expectations. Made of durable porcelain, this new addition to the Curvo family retains the powerful and distinctive curves that characterise this collection. In addition, the off-white shade adds a touch of sophistication to the already impressive allure of Curvo.

From top to bottom: a dark brown glass with a light brown beverage; a clear glass with a white, frothy beverage; a dark brown glass with a dark brown beverage; a clear glass with a white, frothy beverage; and a clear glass with a white, frothy beverage.
