ENGRAVING

O U R H I S T O R Y

We are the world's most talented copper artisans with workshops in Austin, Texas and Michoacan, Mexico.

Our business unites the modern world and ancient craft with a tradition that originated mysteriously over 1000 years ago. Our town in Mexico, Santa Clara del Cobre, was originally founded as part of a utopian society over 500 years ago based on this copper craft.

On this rapidly changing world, Sertodo Copper maintains a balance between the ancient and modern, integrating technology and ancient craft with a deep respect for creativity and the work of the human hand.

F O R G E N E R A T I O N S

YOUR COPPER

Copper has been a part of the human hearth and history for millenia due to its BEAUTY and incredible UTILITY.

Our hand-hammered process hardens your copper for SUPERB DURABILITY and beauty that LASTS FOR GENERATIONS.

Our PEACOCK PATINA brings out the warm tones and subtle shine of copper colors across the spectrum in a low maintenance finish that requires no polishing.

Your copper is an INHERENTLY CLEAN material with strong antibacterial, antimicrobial and antifungal properties.

Your COPPER is PURE, heavy-gauge and from recycled sources.

C O P P E R C A R E

Copper develops a LIVING FINISH that reflects it's use and environment. It follows your preference for sparkling shine or rich, warm patinas with easy or no maintenance.

Please check our website for more tips and videos about caring for your copper.

A close-up photograph of a chef's hands holding a copper pot. The chef is wearing a dark blue or black apron with a light-colored strap. The pot is filled with a white, foamy substance, possibly milk or cream, which is being stirred. The pot is placed on a white, textured cloth on a wooden surface. The lighting is dramatic, highlighting the texture of the copper and the foam.

KITCHEN

COPPER AND KITCHENS, THE CHICKEN AND THE EGG

Copper has been elegantly dealing with the dilemma of the chicken and the egg in kitchens for thousands of years.

Cook, ponder, enjoy. There are few higher callings than this.

COOKWARE

Our modern reworking of the handle, heat resistant, ergonomic and light weight to give you more control and comfort improves on the most prized of all cookware, heavy gauge, traditionally tinned copper pots and pans.
